Instructions for Registering On-line Homework

To begin the registration process for the on-line homework system, follow the link: http://bit.ly/saplinginstructions to reach the instructions. Note that other information regarding the Sapling Learning is also contained here.

Open another window in your browser (so that you can easily refer back to the instructions) and go to: http://www2.saplinglearning.com/, click on “US Higher Ed” at the top right.

Now you can create an account with Sapling.

You are now ready to log in and register for your instructor’s course. Make sure you choose the correct course number (CH 1010 or CH 1020) as well as the correct instructor name.
Part of the registration process involves payment. You can use a credit card or Pay-Pal account. There are two options. (i) The single semester option costs $30 (ii) The two semester option costs $45; this is the best option if you expect to take CH 102. Alternatively an access code can be purchased from the bookstore; the cost is higher than that of the Sapling Learning website.

Note that there is a fourteen day grace period from the beginning of the semester in which you can create an account and register for your instructor’s course before payment is required. This allows you to start on your homework assignments while waiting for any necessary funds. At any point during the grace period you may choose to pay by clicking “pay now” at the top of the course page. The grace period will end August 31.

**Add your CUID Number to your Account**
Refer to the instructions (see first paragraph of this document) to update your Profile so that it includes your CUID number (i.e. C12345678). Scroll down to “Edit Your Account” and follow the steps to locate the “ID Number” field which should be updated to show your CUID number.

Once you have registered and enrolled, you can log in at any time to complete or review your homework assignments. During sign up or throughout the term, if you have any technical problems or grading issues, send an email to support@saplinglearning.com explaining the issue. The Sapling Learning student support team is almost always faster and better able to resolve issues than your instructor.
